Morristown, NJ 07960

Dear Committee,

With this letter, the Unitarian Universalist Association, Office of Congregation Stewardship Services is very pleased to formally welcome the Morristown Unitarian Fellowship as the first congregation to engage in re-accreditation candidacy for the Green Sanctuary Program. A Green Sanctuary Review Team has examined your application and is impressed with your plans for continued Earth stewardship.

Your congregation has clearly been living out the Green Sanctuary Program Goals since your accreditation. We are impressed with all the environmental programs and projects you have continued to integrate into congregational life. Additionally, it's clear that your designation as a Green Sanctuary has given your congregation energy and enthusiasm for continued commitment to environmental practices.

Your action plan is well thought-out and addresses each of the four focus areas of the Green Sanctuary Program. When working with your Senior High group on the "Take Back the Tap" initiative we encourage you to reach out to the UUSC as they have done lots of work on water and water rights. In addition to handing out CFLs with Neighborhood House and GreenFaith we encourage you to explore ways in which you can provide justice for disadvantaged or oppressed communities and build relationships to create a greater impact.

Overall, your program looks diverse, well balanced, and exciting. We look forward to your continuing progress as you work towards becoming the one of the first Re-Accredited Green Sanctuary. Please feel free to contact me with any questions or concerns as you move forward.

To a greener faith-community and world,

Robin Nelson
