

MUF Search Committee Reports

Survey Results

September 2003

MUF Survey

Methodology:

- **Focus Groups** conducted Summer 2003 prompted members and friends to discuss elements of their vision for MUF. **Nearly 200** participating members and friends indicated the the key strengths and weakness of the organization.
- The Focus Group results also provided the Ministerial Search Committee the areas that should be explored in a **survey** of members and friends.
- **226** responses from members and friends were received. The responses were collected via a paper-and-pencil survey form and a web version of same.
